ZENN MOTOR COMPANY PRESENTING AT THE PRESTIGIOUS ROTH CAPITAL PARTNERS CONFERENCE

THE RITZ CARLTON, LAGUNA NIGUEL, CALIFORNIA
FEBRUARY 19 - 22, 2007

Toronto. February 15, 2007. ZENN Motor Company, a leading electric vehicle manufacturing company, will be presenting to U.S. institutional investors at ROTH Capital's Conference at 11 a.m. on Thursday, February 22, 2007. The company will have a ZENN available for viewing and test-drives throughout the conference.

ROTH Capital Conferences are one of the largest investment conferences in the USA for micro and small cap companies. ROTH combines company presentations, Q&A sessions and management one-on-one meetings so that institutional investors can have an in-depth look at company senior management and issues affecting the growth of the presenting companies.

"We have had a dynamic first year in the public markets with growth of over 260%. We have just closed a prospectus financing for CDN \$10 million to fund further expansion and were very pleased to have a number of new, strategic U.S. Institutional investors involved in this round." stated Ian Clifford, Chief Executive Officer of the Corporation.

Clifford added: "The ROTH Conference brings together the most innovative companies in the CleanTech universe and introduces them to institutional investors who specialize in this erupting investment space. ZENN Motor Company is honored to have been asked to present its business to a group of 'A-List' investors who understand CleanTech and we believe ZENN Motor Company is an extremely well positioned opportunity in the CleanTech space."

Key ZENN Motor Company Highlights 2006/07:

- Went public on the TSX Venture Exchange January, 2006
- Set up a 40,000 square foot production facility and delivered the first production ZENN in 10 months
- Contracted 17 initial retailer locations across the USA; aggressively recruiting additional retailers
- In June, the ZENN wins the Gold Medal at the coveted Michelin Bibendum Challenge in France as the "Best Urban Vehicle"

enlightened mobility™

- In January, 2007, EESstor Inc, a strategic partner of ZENN Motor Company, announced a key milestone in the development of their energy storage technology.

The ZENN electric low speed vehicle is the most innovative and feature-rich LSV including power windows, power locks, remote keyless entry, wipers, defrost, heater and panoramic sunroof, and retails starting at US \$12,750.

ABOUT ZENN MOTOR COMPANY www.ZENNCars.com

Headquartered in Toronto, Canada, Feel Good Cars Corporation, doing business as ZENN Motor Company, is dedicated to producing zero-emission transportation solutions for global markets, including the revolutionary ZENN electric vehicle.

The ZENN Neighborhood Electric Vehicle recharges in as little as 4 hours, has a range of up to 35 miles and gets the equivalent of about **245 MILES PER GALLON** – making ZENN one of most economical automobiles in the world. With zero emissions, the ZENN is a socially responsible transportation choice in this era of Global Warming.

Recently named Best Urban Vehicle at the coveted Michelin Bibendum Challenge, the ZENN demonstrates that real solutions to pollution and congestion are available now. In addition to the Urban Commuter, the ZENN is ideal for gated communities, college & university campuses, military bases, national parks, corporate campuses, local deliveries and much more!

The ZENN is sold through a growing network of retailers across the United States.
